ABOUT THE SESSION

If you are like most CN managers, supervisors, and directors, you've had much more training in nutrition than in leadership. Yet the challenges you face and the things that stress you out have much less to do with whole grains and sodium than with people! Jeff Joiner has spoken and consulted with the Child Nutrition departments at more than 800 school districts in 49 states. **In this fun and impactful session, Jeff teaches basic concepts and approaches to leadership, like driving change, establishing accountability,** bringing out the best in employees, and facilitating cross-functional teamwork. This seminar is one you don't want to miss! (Key Area 3210)
